General Comments

A follow-up inspection was conducted during the afternoon. Children were observed during nap/quiet time, as well as during the transition to afternoon snack and indoor play activities.

Children were also observed utilizing the indoor gross motor area, engaging with equipment such as hoppy balls, balance beams, and skipping ropes.

Two new staff files were reviewed and verified as complete, with all required documentation on file.

Discussions were held regarding the legislative changes affecting infants aged 12 months and older. The term and condition related to the infant sleep/rest area on the license will be updated to reflect these changes.

The facility is recommended for license renewal.
