General Comments
The Quality Assurance Monitor is on-site for the renewal inspection. The designated outdoor play area is the school playground. As this playground is not part of the daycare, it was not inspected during the renewal inspection. It is the operator's responsibility to ensure that the outdoor play area is maintained safe and free of hazards for children. No children were present in the classroom during the renewal inspection, as they had been combined with children under another licence. The regulations that could not be verified during the renewal inspection will be verified during a monitoring inspection at a later date.
