Comments: Deficiency is now compliant			

General Comments
Monitoring Inspection: Children and educators observed engaged in outdoor play this morning. A variety of materials have been added to the outdoor environment that encourage children to dig, dump, fill and build. Each indoor play area is set-up with a variety of materials for the children to explore each interest center freely. Materials and documentation have been added that support the children's current interests (the five senses, forts, pets and family). Documentation is displayed throughout the environment that includes connection to the NB Curriculum Framework. Each child has a portfolio filled with photos, learning stories and art pieces. QA Monitor discussed gate latches on outdoor play area fence, the gate has shifted from the frost thaw, making the latches not close properly. Staff confirmed that they are scheduled to be repaired tomorrow. QA Monitor will follow up on next visit. Monthly fire drills are documented. New staff file review (2) was completed, all required documents are in place.
