Comments: Deficiency is now compliant			

General Comments
<p>Licensing staff arrived at the licensed facility to conduct a monitoring inspection visit on August 16th, 2022.</p> <p>The protective surfacing has been replenished surrounding the stationary equipment located on the outdoor playground.</p> <p>The school-aged children were engaging in free play activities before going back outside to play.</p> <p>While inspecting the preschool 3/4 year old classroom, some children were sleeping while other children engaged in a variety of activities. The educator in this classroom had multiple invitations of play set up for the children to explore and create. The invitations of play were as follows: magnetic block building, farm animals and a mark making activity using stencils, pencil crayons, colouring sheets and crayons.</p> <p>The preschool 2/3 year old classroom children were sleeping at the time of the monitoring inspection visit.</p> <p>While inspecting the indoor environment, licensing staff noted that a baseboard heater, located in the washroom, was rusted and paint was flaking off. Please replace this baseboard heater in order to maintain the safety of the children.</p>
