| Comments: During the inspection, the Quality Assurance Monitor observed that there was no sufficient and varied materials present in the outdoor play area. The Quality Assurance Monitor had a discussion with the onsite administrator to find solutions to ensure the children have access to a sufficient variety and quantity of material. The administrator has confirmed that this would be rectified and that they would elaborate a plan to ensure that they establish a sustainable solution. The administrator has also confirmed that they would put in place procedures to ensure that the materials would not need to be replaced as frequently and to ensure that the quality and quantity of material provided to the children is consistent. | | | |
