<p><b>General Comments</b></p> <p>A monitoring inspection occurred in the morning.</p> <p>The children were observed in both the indoor and outdoor environments, including during transitions between the two. The children were also observed eating snack, with hand washing occurring beforehand. The children were observed engaging in a variety of indoor activities, including playing with fire trucks and dump trucks, climbing on foam blocks, dancing to music, and playing with baby dolls.</p> <p>Outdoors, the children were observed using animal figures, pushing trucks and wagons, playing with baby dolls, and engaging in sand play in the sandbox alongside the operator.</p> <p>The operator indicated that the children are currently interested in music, mud activities, and birds. To support the children's interest in birds, the operator had a live stream of nesting birds playing on a small television.</p> <p>Several forms of documentation were visible throughout the room, including individual portfolios, photographs, and children's artwork. The room was well-organized and inviting, offering a varied supply of age-appropriate materials, books, and toys.</p> <p>A clearly visible and prominent area was designated for the posting of the facility license, current monitoring reports, and any orders for compliance. Additional documents reviewed included incident logs, daily attendance records, daily information sheets, one alternate educator file, and records of evacuation and monthly fire drills.</p>
