General Comments

Upon arrival from school, children were reminded to wash their hands. Attendance records were complete. Child files were checked and verified.

The mat was divided into 2 sections- one for climbing and the other for gross motor activities. Children were engaged in climbing, Lego, drawing, and playing their own imaginative games. The schedule was written on a whiteboard for children to see the afternoon plan. Children could climb as often as they wanted, and educators were nearby to remind of safety.

Child guidance was observed to be positive and encouraging during the inspection. Educators were coloring with children and asking them about their day at school. Educators used kind words, humor, and gentle reminders when re-direction was required.

Staff files were checked. The staff signed statement is missing from two files. While the statement is extensive and includes lots of important information, it is missing the piece that confirms the staff member has read and understood their obligations under the Act and Regulations. Please include this in all staff files.

Please move the license and inspection reports to a place that is visible for parents to read.

The contact information for the Quality Assurance Monitor needs to be added to the board.

Please forward the Criminal Record Checks for the Board of Directors as soon as possible. Failure to receive them may result in a non-compliance. The renewal application is also unable to be fully processed with these checks missing from the file.
