General Comments
<p>The facility is located in the basement of the operator's home offering a very bright, welcoming environment. Curriculum areas are represented throughout the centre with a bookshelf accessible to the children, a science area set up on a table, and shelves holding various resources. The sleep area has a ladder available for fire drills through the accessible window.</p> <p>The children were engaged in free play for part of the morning and then went out to the backyard for play. The operator had some new resources for children to play with including soft nerf ball guns, bubbles, and a game. The large outdoor space includes a mud kitchen, two slides, a little house, two tables, chairs, and other outdoor items. The trees provide shade over the resources space and allow the green space sun. Ride-on cars were available for use and children bring their helmets to drive bikes.</p> <p>The operator is very kind and talks through incidents with children. She was responsive to their needs and followed their lead in transitions. She was engaged in play with the children while outside blowing bubbles, talking about the environment and setting up toys. The children played independently choosing with they were interested in and then joined in group activities such as busting bubbles.</p>
