General Comments

A renewal inspection occurred May 13, 2025, on the school-age portion of this license only. The preschool children have been moved to the new childcare facility down the street. All staff and children's files were reviewed and verified complete. Children were observed by the Inspector arriving from school, washing hands before snack, afternoon snack, inside play and outside play. In the fenced in play area outside, a basketball net and numerous balls have been added as this is a current interest of the children. Children were observed by the Inspector playing with these, hanging with their peers and blowing bubbles. Facility is recommended for license renewal, pending the recommendation from Fire.
