General Comments Monitoring Inspection - Full Day - Summer Program: The children and educators had spent the morning at a local playground today. They were observed during lunch time. Educators were observed engaging in meaningful conversations with the children during lunch. Purposeful planning is evident through documentation displayed throughout the environment. The children are currently interested in science experiments, cooking and their community. Three bulletin boards display photos of their science experiments, culinary creations and community adventures. The environment is set-up with a variety of age-appropriate materials for the children to explore freely. The environment appears organized and well-maintained. Handwashing routines were observed after outdoor play and before mealtimes. Monthly fire drills are documented. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. New staff file (3) review was completed; all required documents are in place.
