General Comments

Monitoring Inspection:

Children and educators were observed engaged in a variety of activities this morning including outdoor play, mark making, puzzles, dramatic play, and sensory opportunities. The infants were observed exploring age-appropriate mark making materials with their educators. The children in the Twos Room were observed washing their babies in the sensory table. Their educator was observed at their level engaging in meaningful conversations. The preschool children were observed in the outdoor play area looking for worms and bugs. Their educator was down at their level encouraging them to look in different places, asking them questions, and getting them to make predictions by guessing what they might find.

Documentation of purposeful planning is displayed throughout each environment and clearly illustrates the connections between children's interests, educator observations, and planned experiences.

It was observed during outdoor play some materials are lacking for the number of children enrolled and children were observed to argue over some of the favourite materials. Examples of materials to be added materials for digging (shovels, scoops, spoons, rakes) materials for filling or carrying (baskets, buckets, pots, bowls), balls and larger push type vehicles.

Handwashing routines were observed during washroom/diapering routines, after outdoor play and before lunch.
Beef and cheese tacos with garden salad was served for lunch today. A vegetarian taco was also available.
Monthly fire drills are documented.
Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection.
New staff file (3) review was completed; all required documents are in place.
Facility is currently meeting the 50% trained Early Childhood Educators (7/8) requirement.
