General Comments The following items are verified during the monitoring inspection: -The child-to-educator ratio. -The facility has the appropriate number of toilets and sinks available and in working order. -Potty chairs and step stools are provided for children. -Toxic products, chemicals, and cleaning supplies are stored in locked cabinets. -Nutrition. Water bottles are available to children at all times. -The outdoor play area and outdoor play equipment. -Children's personal belongings are labeled, used exclusively by the individual child, and stored separately for each child. -Daily attendance records for children. -Records of emergency evacuation and fire drills indicate that they are conducted monthly. A discussion took place regarding the maintenance and inspection plan for outdoor park, which must indicate that inspections are carried out monthly. During the monitoring inspection, the Quality Assurance Monitor observed the morning routine, including table activities, handwashing and toileting, snack time, reading a Ladybug book, and educator-led indoor play activities (building a tent and pretending that we were wild camping). Questions were answered on site.
