General Comments

A renewal re-inspection occurred on June 3, 2025. Inspector arrived at the childcare facility on May 30, 2025, however the renewal inspection was not completed due to extenuating circumstances. On May 30, 2025, ratio was taken, and all staff files were reviewed and verified completed. Professional Learning for staff was verified on June 3, 2025, at the re-inspection. A random review of children's files occurred and were verified complete. All items on the renewal checklist were observed and verified in compliance with the Early Childhood Services Act. Children were observed on June 3, 2025, engaged in inside play with materials, however the children spent most of the day outside in the fenced in play area. Children were observed playing with trucks, balls, digging in the sandbox, playing on the slides, and making/throwing paper airplanes. The school-age children were observed in water play with the hose with their peers and after school educator. Discussed with the Operator Regulation 11 (c)(ii)(A): The qualifications and training requirements for administrators and educators are as follows: on and after July 1, 2020, at least 50% of educators must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister. The Operator has submitted a plan to the Inspector on how the facility will work towards meeting this Regulation. Discussed with the Administrator to ensure that the shade sail/umbrella is attached over the infant play area as soon as possible to protect the infants from the sun. Educators were observed tending to the needs of the children, comforting children when they became upset, speaking kindly to them and down at their level engaged in their learning and play.
