<p>General Comments</p> <p>This was the first monitoring visit since the facility opened. The center was running smoothly. The educators were communicating and working as team. Staff files were reviewed. All required documents were in the files. There is evidence of planned programming and detailed documentation was noted in each room. Proper procedures are being followed as seen today when a child was sent home due to high temperature. An exclusion form was filled out by the educator. There are also notice of illness form posted on the doors to advise parents and visitors of an illness in the facility. Discussed with the administrator to watch for falling snow and ice off the storage shed in the infant playground. Administrator stated would remove the play kitchen and other materials away from the building in the event snow does slide off the roof.</p> <p>The educators were friendly and helpful during the visit.</p>
