| Order for Compliance | Regulation | Date to be corrected | Date corrected |

General Comments

The facility was operating very well during my visit
There is evidence of planned programming, as seen by the learning stories posted on the wall, webbing charts and quotes from the children.
During the visit the children were engaged in a variety of activities such as making pumpkin sun catchers with the junior preschoolers creating an obstacle course in the four-year-old room.
The two- and three-year-olds spent most of the morning outside blowing bubbles playing in the mud kitchen area, digging in the dirt and playing on the slide play structure.
Children are familiar with the daily routine of the facility as observed during handwashing before lunch, eating lunch together and getting ready for nap time.
The educators were actively engaged with the children and were observed sitting with the children while they ate their lunch.
Only positive child guidance was observed during the visit.
