General Comments

Upon Licensing Staff arrival, the children were playing indoors. The main entry way is welcoming and bright. The children's belongings were organized on hooks with their names and photos.

The indoor play space in both rooms were clean and tidy. The 4-year-old room had a wooden play kitchen, wooden blocks, bins with dinosaurs, magnets, and craft supplies. The after-school room had nature sensory bins with pinecones and other dry loose pieces, Lego, paint, chalk, markers, wooden blocks, an indoor basketball game and a cozy corner with chairs and a large world map.

During the inspection, the Fire Department arrived for a presentation. Educators offered support to children cleaning up before heading outdoors and words of encouragement were noticed. The children were very excited to learn about fire safety, the fire truck and all of firefighting gear. Once outside, an Educator was observed playing a game of eye-spy, allowing a smooth transition while waiting their turn to go to the presentation space in the rear parking lot. Attendance sheets were taken outdoors, and all Educators were engaged while sitting with the children during the presentation. The children enjoyed taking turns helping with the fire extinguisher demonstration and seeing the jaws of life crunch pieces of wood.

After the presentation, the children came indoors for lunch. Educators were observed sitting with the children and offering assistance when needed. As a reminder, please ensure all children wash their hands before eating.

Child and staff files contained all required documentation and allergy alerts were posted on the wall.

Licensing Staff recommends for renewal.
