General Comments
<p>Purpose of visit was to perform a regular monitoring inspection. Children were still resting for quiet time at the time of the inspection. Positive behaviour guidance was observed at all times.</p> <p>Indoor play area was well maintained, safe and clean. Several paintings and art projects were posted throughout the home along with photos of the children and learning stories. Materials had been changed since last visit. Doll House with furniture had been added and table had been removed from play area over concerns with children climbing. Materials were developmentally appropriate and activity areas were well defined with the new layout.</p> <p>All children were signed in and infant sheets were filled out and up to date. Incident reports were being completed for incident that occurred that day.</p> <p>Operator expressed interest in guidance from the curriculum team and quiet time strategies. Licensing team will continue to support newly licensed home by making referral to curriculum team and continue to support with resources and professional development opportunities. This writer will follow up with naptime strategies and ensure that all professional development opportunities are being re-laid to operator.</p>
