General Comments
The following items were also verified at the time of the monitoring inspection: -The child-to-educator ratio. -Criminal record checks/vulnerable sector checks, valid first aid certificates, valid cardiopulmonary resuscitation (CPR) certificates, and job descriptions outlining functions and responsibilities were verified for new staff members. -Job descriptions and statements of responsibilities are included in staff members' files. -The outdoor play area and outdoor play equipment. -The outdoor play area was safe and clean at the time of the inspection. There were also several small shovels, balls, trucks, and toy cars available in the playgrounds. Picnic tables had been installed so that children could have the option of sitting or eating outside. -Incident logs and incident reports. A discussion also took place on this topic. The mentor provided examples of situations in which an incident log must be completed and situations in which an incident report must be completed. Examples of information that should be included in an incident report were also provided. At the time of the monitoring inspection, the Quality Assurance Mentor observed outdoor free play with one group in the morning, handwashing (and toileting for some children) in another group, and preparations for going outside (changing into sneakers, applying sunscreen, and putting on a cap or hat). Diaper changing was also observed. The children all had their water bottles within easy reach. The educators sang songs with the children during transitions.
