General Comments

Monitoring Inspection performed to confirm fence install. Condition was provided at initial licensing that required a fence to be installed by May 31, 2023. Operator has installed a high-quality wooden fence with gate. The outdoor play space was safe and provided opportunities for water play, gardening, and exploring. A large tree provided shade and a ride on toy, wagon, and tunnel offered other play opportunities.

Both inside and outside, the operator displayed positive child guidance. Children were treated with respect and spoken to in a calm voice at their level. If big feelings arose when children wanted the same toy, the operator took ample time to have an age-appropriate conversation with the children about sharing and patience.
