General Comments

Children had finished snack and were getting ready for outdoor play time when I arrived. While outside the children were engaged in a variety of activities such as digging in the sandbox, playing on the slide, picking leaves off the trees, throwing balls, playing tag and building towers with wooden blocks.

The operator stated that she is currently focusing on independency with the children, by having them put their own shoes on, and opening packages in their lunch bags. She is also focusing on consistency and a routine with the children as new children started in September.

During the visit, positive child guidance was observed. Gentle reminders, positive reinforcement and offering different choices to the children when disputes arouse. The operator is teaching children to use their words and not their hands when they get frustrated.

The operator was responsive to the needs of the children and the children seemed comfortable in the environment.

Please update the parent board with the new inspector's information.
