<p>General Comments</p> <p>Monitoring Inspection - School-Age Program Only:</p> <p>Children and educators were observed engaged in a variety of activities this afternoon including painting, drawing, and games. The children in Room #12 were observed making handprints with paint and decorating paper Easter eggs with a variety of different mark making materials. A group of children in Room #14 were observed drawing pictures for their art gallery. Another group was engaging in a game of catch with a soft block; they had created their own rules together for their game.</p> <p>QA Monitor discussed with educators the option of going straight outside to play at arrival to allow the children to burn off energy before entering the indoor play area for snack and indoor play.</p> <p>During inspection it was noted that a new diaper changing table has been added to the washroom in the front entryway; the changing pad is made of an absorbent material. Ensure changing pad is replaced with one that is made of a non-absorbent material, that can be easily sanitized. QA Monitor discussed with Administrator on site. Ensure diaper changing procedures are posted near changing area.</p> <p>Preschool Rooms #10 & 11 were not observed during inspection as they were closed due to staffing and attendance.</p> <p>Monthly fire drills are documented. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. New staff file (3) review was completed.</p>
