General Comments

When I arrived staff and children were outside.
The children have a large bin full of outdoor toys. New benches were added since my last inspection.
The children are digging into the ground because they want to play with sand, although there are already two different surfaces outside, I would recommend adding a sand box for the children as they clearly have an interest in playing with sand.
I would also recommend a quiet area outside so the children have a more private space to go when they need a break.
Staff were engaged with the children and were observed playing games with them. Staff was also heard talking to children about their day at school and showing interest in their experiences. Staff was also heard providing children with compliments and encouraging words.
The inside classrooms are clean and organized. The children have access to a sufficient amount of materials and of different categories and interest.
Everything is in compliance; I recommend for renewal.
