Order for Compliance	Regulation	Date to be corrected	Date corrected
30(3) An operator shall maintain the indoor play area of a licensed facility to ensure the safety of the children.	30(3)	Dec 06, 2024	
Comments: There are some holes in the walls and several floor tiles missing. Please ensure the indoor play area is safe and clean at all times.			
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Nov 01, 2024	Dec 10, 2024
Comments: Due to recent snow, the deficiency is now compliant. Please ensure that the surface area of the outdoor play area is maintained for the safety of children.			
33(1) An operator of a licensed facility shall provide outdoor play area materials and equipment that are varied and in sufficient quantity for the number and ages of the children receiving services at the licensed facility.	33(1)	Nov 01, 2024	
Comments: The outdoor area is lacking items for some of the materials present such as the house, car rack, and easel. There needs to be a cleanup of any broken resources and ensure curriculum areas are represented in the outdoor area, as well. Please correct as this non-compliance has continued from October's monitoring inspection.			
38(1) The children receiving services at a licensed facility shall have access to washrooms that include the following: (a) if one to nine preschool children or school-age children are receiving the services, one toilet and one sink; (b) if ten to 24 preschool children or school-age children are receiving the services, two toilets and two sinks; (c) if 25 to 49 preschool children or school-age children are receiving the services, three toilets and three sinks; and (d) if 50 or more preschool children or school-age children are receiving the services, four toilets and four sinks.	38(1)	Dec 06, 2024	
Comments: One washroom has a broken toilet, so the educators have asked children to use the other washrooms. Please ensure all washrooms accessible to children are functioning properly.			

### General Comments

This was the second follow-up inspection to check that non-compliances have been corrected. There has been no progress towards correction of items related to outdoor materials and the condition of the walls, floor and washroom. One non-compliance related to the outdoor play area has been removed due to recent snow fall that has filled in the holes and covered the tires. However, this will need to be addressed in the spring. To ensure children have a safe and engaging environment, please address non-compliances asap.
