<p>General Comments</p> <p>Licensing Staff arrived at the Facility to perform a Monitoring Inspection. Upon arrival, the children were finishing up quiet time. The transition from quiet time to tabletop activities was smooth and calm. There is a new little one who joined today and is new to the routine. The Operator was observed giving extra cuddles, hugs and words of encouragement to help the infant feel comfortable in the environment.</p> <p>The space offers materials that encourage problem solving skills, improving fine motor skills and creativity such as a balancing station, shoe lacing activity, hammering activity and a variety of sensory bins.</p> <p>Throughout the visit the Operator was observed following the children's interest and extending their learning, "What do you think would happen if you put one magnet under the table?". Positive child guidance and re-directing was also observed, "I'll show you where we can play with the chalk, come with me to the chalk board!".</p> <p>The children appear to be very comfortable in the environment and with the Operator. The Operator allows for the children to test limits with the materials and freely explore, all while carefully observing to ensure they are being safe. When it was time to clean up for snack the children helped put toys and bins away and helped sweep the snack area. Proper hand washing was observed before the children sat down for afternoon snack.</p> <p>Attendance is being tracked and the Parent Board had all required documents. The cubby area is clean and all the children's belongings are labelled.</p>
