<p>General Comments</p> <p>This is the operator's first monitoring inspection since becoming licensed.</p> <p>Upon licensing staff's arrival, children were engaged in free play. The indoor play space was clean, organized and had a large variety of play materials for the age of the children. Photos and recent art projects are posted.</p> <p>Before going for their daily walk, the operator took out of a sensory bin for the children to play with. She used a large canvas mat underneath the container for the children to sit on and the contents of the bin could be poured out on the mat. Moments were taken to focus on words to build the children's vocabulary- scoop, squish, pinch, full, pour and stir. She also remained seated with the children and engaged in their imaginative play of making soup.</p> <p>Transitions were smooth between activities and children were provided with time warnings to prepare for the change in routine.</p> <p>The operator purchased a large 4-seater stroller for their neighborhood walks. The children enjoyed going on the walk and the operator stopped numerous times for the children to see the farm with a horse, the brook, trucks, an apple tree and the mailbox.</p> <p>The operator offered lots of positive child guidance and interacted with children in a kind and loving manner. She was patient, kind and implemented lots of rich conversation.</p>
