

## Early Learning and Childcare Facility Inspection Report

Type of Inspection:  
Monitoring Inspection

Pursuant to section 21 of the *Early Childhood Services Act*, operators of licensed early learning and childcare facilities must post their most recent inspection report in a clearly visible and prominent place in the facility.

| General Comments  |
| <p>This visit was a follow-up from the renewal inspection to check if the ceiling tiles have been repaired in the space. They have not but the educator mentioned that the roof has now been repaired and the custodian has been in to inspect what needs to be repaired.</p> <p>The children and educator were outside on the playground today. Children play independently in the outdoor space as the educator walks around to check in with children and gives reminders of transitions. Children needing to go to the washroom were able to go into the school while the educator stayed at the door.</p> <p>The educator counted all the children before going in for snack. Children washed their hands and sat at the tables for snack.</p> <p>Some new resources were presented to the children and they quickly finished snack to play. The educator also prepared a container of playdough and materials for play today. A community business is having a Halloween party this week so the educator is going to prepare a consent form for parents to sign so the children can attend.</p> |
