**General Comments**

Upon arrival of licensing staff, the children had finished snack and were getting cleaned up. The operator did diaper change and the children engaged in free play. The children were observed playing and climbing on the soft blocks. Some children played with marble races and others played with the market in the dramatic play corner. The operator explained to licensing staff that they've been working on family picture cubes for each child. The blocks are covered with pictures of the children, their families, and quotes.

The children and operator started getting ready to go play outside. The operator helped the children get dressed and sang songs with them as they got dressed. The children and operator walked to the snow hill next door and brought shovels. The operator brought a backpack with a First Aid kit and the attendance sheet. The children enjoyed playing with the shovels and the snow. After playing outside, the children and operator returned inside for lunch. The operator helped the children get their snowsuits off and the children brought their hats and gloves to the dryer so they could wear them again in the afternoon.

The children washed their hands and sat at the table for lunch. The operator helped the children with their lunches and sat to have lunch with them. After lunch, the children washed their hands and engaged in free play while the others finished. The operator did diaper changes and the children transitioned to the rest area. The operator tucked the children in and sat with them until they fell asleep. The operator is attentive to the children and speaks kindly to them. Only positive child guidance was observed.
