### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the Educators were in the process of setting up the classroom before the children arrived from school. At one table, an Educator set out multiple containers of Play Doh, rolling pins, cookie cutters and other Play Doh accessories. Beads, cups, paper plates and colorful tape were set out at another table for the children to make their own kaleidoscope.

The Educator greeted the children at the bus stop. Children were promptly signed in, and the Educator was observed calling the families of children who were absent to ensure they were accounted for. Once inside the facility, proper hand washing was observed before the children had afternoon snack. After snack, the children read books, played with Lego and drew pictures. Later in the afternoon, the children packed up their personal belongings to end the day outside. Water bottles were filled, and sunscreen was applied. Outside, a small group of children played with skipping ropes and sidewalk chalk.

Staff files and child profiles were reviewed during today's Monitoring Inspection. The files were organized, easily accessible and contained all required documents. Fire drills, incident reports and pre planned activities are being documented. Only positive child guidance was observed during today's visit. Educators showed a genuine interest in hearing how the children's day was and were actively engaged in the activities. The children were heard laughing and joking with Educators throughout the afternoon.
