General Comments

Upon the licensing staff's arrival for the renewal inspection, an educator was outside greeting children as they arrived from school bus after school. Attendance was taken and children entered the building. Children either ate at clean tables or engaged in free play, which included activities such as playing with Legos, puppets, card games, drawing, pretend cleaning, and pretend doctor play.

The educator then gave a 10-minute warning for clean-up. Educators checked the UV index to determine if sunscreen was needed before going outside and brought the first aid kit. The children proceeded to clean up and line up at the door. For the afternoon, children played on a monkey bar swing set attached to trees, took turns, relaxed on hammocks, and played in the mud kitchen. Educators were actively engaged with the children, supervising while also playing with them

Throughout the visit, only positive child guidance was observed. Staff and child files were verified. Licensing staff recommends renewal.
