General Comments

Monitoring Inspection:

Children and their educator were observed engaged in a variety of activities this afternoon including art, building, and reading. A workbench has been added to the environment with a variety of tools and loose parts for the children to create and build with.

Purposeful planning is evident through documentation, invitations and materials added to the environments that support the children's current interests. Documentation and photos have been displayed throughout the environment.

A fire drill was not conduct in September 2026; QA Monitor discussed with staff and recommended conducting an extra drill in November.
Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection.
