<p>General Comments</p> <p>Monitoring Inspection:</p> <p>Children and educators observed engaged in a variety of activities this morning including outdoor play, climbing, exploring blocks, stories, open-ended art and music and movement. The infants were observed in the outdoor play area exploring the snow and outdoor play materials. The toddlers were observed exploring paint, reading and building with blocks. A small group of preschoolers were on a field trip; they took the city bus to NBCC to participate in literacy activities with ECE students for the morning. The other group of preschool children were observed in the outdoor play area sliding and exploring the snow.</p> <p>Purposeful planning is evident through documentation displayed throughout the environments that supports the children's current interests (snow, forts, dumping and stacking, vehicles, painting and music). Documentation includes connections to the NB Curriculum Framework. Invitations are set-up within the interest centres for the children to explore freely. Each child's learning is documented in their portfolio.</p> <p>Diaper changing procedures were observed not to be followed within the Infant Room. Staff washed their hands between each change; however, the children's hands were not washed after their diaper change. Ensure diaper changing procedures are reviewed and implemented.</p> <p>Handwashing routines were observed during washroom routines and after messy play. Monthly fire drills are documented. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. New staff file (3) review was completed, all required documents are in place.</p>
