28(3) The premises of a licensed facility shall comply with (b) codes and standards under the Fire Prevention Act. Comments: Deficiency is now compliant	28(3)(b)	May 14, 2024	Jul 23, 2024

General Comments
<p>Children were finishing snack and heading outside this morning. One child in the infant room still has a nap in the morning so the children played in the room for free play and then got ready to go outside with two educators and one educator remained with the napping child. Once the child had a short nap, as requested by parents and meeting the child's needs, the educator brought the child outside to join all the children.</p> <p>The infant and preschool outdoor area have been supplied with new resources and the children were engaged in play. The educators joined the children in the sand boxes, going for walks around the playground, and sitting to have discussions. The sandboxes provide shade for the children and the large patio provides further shade in the preschool area. The children in the afterschool area received new resources and requested more as they have been enjoying making mud pies and desserts.</p> <p>Each of the rooms are clean with no added storage impacting play spaces. The application for changing the preschool and school-age space were received on site and changes have already been made to change the rooms.</p> <p>Staff files were reviewed as there have been some new staff and all files are complete and organized.</p>
