<b>General Comments</b>
<p>A renewal inspection occurred today.</p> <p>The children were observed reading books, playing with blocks, sliding on the play structure, and having lunch. The operator was down on floor engaged in play with the children.</p> <p>The environment was set up with a wide range of materials. The operator shared with licensing staff that she rotates the children's toys every day or as needed. Licensing staff discussed with the operator the idea of creating an art and science shelf. This would give children more opportunities to explore art and science.</p> <p>Documentation was current around the children's play space. The operator showed licensing staff the children's portfolios, planning sheets, and observation sheets. Licensing staff discussed with the operator how she could take her documentation to the next level. This would be done by referencing the New Brunswick Curriculum Framework and planning what's next to scaffold the children's learning.</p> <p>Operator was using both French and English while talking to the children. The children's growing comprehension of both languages was evident.</p> <p>The following records were reviewed: Incident logs, fire drills, daily attendance sheets, and infant toddler daily sheets.</p> <p>Operator's file was viewed, and all of the child files were reviewed.</p> <p>Facility is recommended for licensing.</p>
