General Comments

and is located one meter or less from a sink and children are always supervised during diaper changing.
-In each room documentation on an outdoor challenge was obvious, I could see a lot of outdoor material into the rooms that was made available to the kids.
-Specific information about each child is posted into the infant's room, so any relief staff will know which song, food or toy is their favorite or who needs a soother or a favorite blanket

Observations: When arriving at the center all children were getting ready to go outside to play, the infants were all up and ready in their strollers for a walk. When coming in from their outdoor time everybody washed their hands, diapers were changed, and lunch was served. All infants and younger preschooler were put down for their nap and staff go busy with their cleaning.
