General Comments

A renewal inspection occurred during the morning and afternoon on the license.

Inspector observed the children participating in both inside and outside play. Educators indicated that they now break the children into two groups when going outside. The children do combine into one group at the end of the day when numbers are reduced.

During outside play the children were observed playing in the sand, swinging on the swings, and engaged in imaginary play in the mud kitchen.

When the children were inside, they were observed having lunch, playing mini pool, creating with playdough, Lego, coloring and making art creations.

Educators were observed actively engaged with the children and always supervising them.

Discussions occurred regarding Incident Logs and that they must be kept for a year, and to maintain them in a binder chronologically.

Educators were also observed speaking to the children using positive child guidance and using redirection if required.

Facility is recommended for license renewal.
