Education and Early Childhood Development

WSP-ECE Handbook Insert for:
ECE Wage Grid Guidelines

Revised April 2023
Introduction

The Canada - New Brunswick Canada Wide Early Learning and Child Care Agreement continues to build on the success of the designation of New Brunswick Early Learning Centres and New Brunswick Early Learning Homes. New Brunswick’s vision is to ensure access to a high-quality, affordable, and inclusive early learning and child-care system that families can rely on and where every child receives the necessary services to reach their full potential. Ensuring parents have access to affordable, quality, and inclusive early learning and child-care services supports a parent’s ability to participate in the workforce, while also providing children with meaningful learning experiences from a young age.

The key elements of quality childcare services include a stable workforce that is knowledgeable, experienced, and caring. Wages that are clearly articulated and predictable play an important role in the recruitment and retention of qualified Early Childhood Educators (ECE). Effective November 01, 2022, to further support the recruitment and retention of qualified Early Childhood Educators, the Government of New Brunswick will implement an ECE Wage Grid for educators working in designated NB Early Learning Centres and NB Early Learning Homes with children 0-5 years and for school-age educators working in licenced early learning and childcare facilities in New Brunswick.

Acknowledgement

We wish to acknowledge the contribution of the early learning and childcare operators who have been integral in the development of these ECE Wage Grid Guidelines: The Francophone and Anglophone sector Working Groups, and the Operator Engagement Table members.

Thank you for your thoughtful participation and commitment to building a stronger and more stable ECE workforce for New Brunswick children and families.

Level Criteria

Funding Levels are determined based on the following qualifications and training:

**Step Assignment Criteria**

Step Assignments apply to **new educators, relief staff** and **conditionally approved educators**.

The assignment of a Step will be determined by the operator using the following criteria:

- An educator must provide the operator with documentation demonstrating relevant years of experience since completion of the recognized training for the funding Level they qualify for (see Relevant Work Experience below).

- Operators will upload the completed *ECE Wage Grid Attestation* form to the Operator Portal as part of the WSP-ECE application process.
- Documentation demonstrating the relevant experience must be maintained in the educator’s staff file and is not required to be sent to EECD unless requested.
- WSP-ECE applications must be submitted a minimum of five (5) business days prior to the start of the next WSP-ECE reporting period.

- Operators will be solely responsible for WSP-ECE wage top up provided to educators prior to approval of educators in the Portal. Retroactive adjustments will **not** be provided.

**Step Increase Criteria**

For an educator to be eligible for a Step increase, the following conditions must be met:

- A 12-month calendar year, **AND**
- A minimum of 750 hours of relevant work experience, **AND**
