<p>General Comments</p> <p>Children were playing throughout the space when licensing staff arrived. Resources were accessible to children throughout the space. One child wanted to dance and the operator put on a familiar dance video that two children enjoyed, dancing and modelling the actions.</p> <p>The operator began bum changes before lunch and after setting out lunches on the table for each child reminded children to wash their hands. A highchair and tables provided space for children to eat. After eating, children's lunch containers were put away and tables cleaned to allow some free play and naptime for children sleeping. The television continued to play videos and the operator and licensing staff discussed limiting television throughout the day as it can affect children's focus during play.</p> <p>Individual learning stories were posted on the wall for each child highlighting their learning. The operator mentioned changing hours to reflect current enrollment.</p>
