Name of Early Learning and Childcare Licensing Staff Lindsay Lewis		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the children were getting their sunscreen on in preparation of outdoor time. The Operator was patient and was heard using kind words as she assisted the children getting their hats and outdoor shoes on. Attendance records, water bottles and bug spray were brought outside.

Several positive changes have been made to the outdoor play space since the last Monitoring Inspection. A new sandbox and large mulch area has been added as well as multiple wooden pieces such as a mud kitchen, tunnel and climber. There's a variety of materials for the children to use, all of which are in good condition. The Operator mentioned the children have been interested in butterflies lately, so bug nets have been added to the outdoor play space. Throughout the morning the children were observed building sandcastles, playing with the water table, collecting elements of nature and watering plants. The Operator gave the children several gentle reminders before it was time to go inside for lunch.

The transition from the outdoor play space to inside was smooth. Once inside, the Operator helped change children who had wet clothing while the others played with wooden blocks and trucks in the main play area. All children used the washroom and washed their hands before sitting down for lunch time. Inside there are several current learning stories, pictures of the children, quotes from the children and artwork on display. Only positive child guidance was observed during today's Monitoring Inspection. The Operator was activity engaged with the children throughout the morning, building sandcastles with them, offering hugs and showed a genuine interest in their activities.
