General Comments

A Monitoring Inspection occurred August 2025

The children were observed engaging in a variety of activities across indoor and outdoor environments as well as during transitions between both environments. The observation also included snack with handwashing occurring beforehand.

Indoors: The children were observed playing with Little People figures, interacting with the school bus toy, looking at books, and singing songs such as 'Old MacDonald,' 'Twinkle Twinkle Little Star,' and the ABCs.

Outdoors: The children were observed exploring sensory containers filled with multicolored rice and cups, playing at the water table, picking tomatoes and cucumbers off the vine to enjoy during snack time, and drawing with chalk.

The operator indicated that the children are currently interested in water play, sensory activities, blowing bubbles, music, and spending time outdoors. Positive child guidance techniques were observed, including the operator being at the children's level, providing appropriate supervision, using positive language, offering choices, and assisting children in decision-making.

Traffic areas, both indoors and outdoors, were maintained in a clean and clutter-free condition. The document review included incident logs, daily attendance records, daily information sheets, and records of evacuation and monthly fire drills.

A conversation took place with the operator on the following:

Ensuring the children's learning is visible in the room through documentation. For example:

- Group and individual learning stories.
- Learning Webs.
- Project work.

General Comments

- Collections and samples of children's art/work.
- Portfolios.
