General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, all classes were observed getting ready for morning snack. Hand washing was observed. This morning's snack was lemon loaf and yogurt, which matched what was posted on the Menu for today.

As the children finished eating morning snack, diapers were changed, and hands were washed. In one room the children were observed dancing and listening to music before gathering to read a story. The Educator stopped several times to engage the children, asking questions. In another room, the children were learning about Hawaii. The Educator used a whiteboard to write down the interests of the children. Discussions regarding Volcanoes, the ocean, seashells and palm trees were heard.

Later in the morning, all classrooms prepared to go outside. The Senior Baby room went for a walk around the block. The children laughed and clapped throughout the walk as they interacted with members of the community. Other classrooms were also observed going for a walk in the neighborhood before playing in the outdoor play space. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the children and were observed giving hugs, high fives and offering words of encouragement. A conversation was had with the Manager on site as a reminder to ensure Incident Reports are being filled out when needed.
