Order for Compliance	Regulation	Date to be corrected	Date corrected
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (b) child records that include: (iv) the name, address and telephone number of at least two individuals authorized by the child's parent or guardian to pick up the child and to be contacted in case of an emergency if the parent or guardian cannot be reached,	24(1)(b)(iv)	Dec 04, 2026	
Comments: The inspector reviews 8 child records and observes that one record contains only one emergency contact and another record does not include the addresses of the two emergency contacts. The names, addresses, and telephone numbers of at least two emergency contacts must be complete. The operator must ensure that all required information for the two emergency contacts is included in each child's record.			
28(2) An operator of a licensed facility shall carry out emergency evacuation and fire drills monthly.	28(2)	Dec 04, 2026	
Comments: The inspector observes that fire drills have not been conducted since September. The operator must ensure that emergency evacuation and fire drills are conducted monthly.			
41(3) An operator of a licensed facility shall (a) post diaper-changing procedures in diaper-changing areas.	41(3)(a)	Nov 30, 2026	Nov 25, 2026
Comments: The inspector observes diapers and wipes stored in a bathroom. When diaper changing is required to meet the needs of a child, diaper-changing procedures must be posted in the diaper-changing area. The inspector informs the operator, who posts the procedures immediately. Deficiency is now compliant.			

General Comments

The inspector is on site to conduct a renewal inspection.

During the inspection, she observes afternoon snack, free play, outdoor play, two open-invitation activities that include a sensory gingerbread village and beaded bracelet making, and children completing crafts in preparation for an upcoming art show. Positive interactions between staff and children are observed throughout the inspection.

The inspector has a discussion with the operator after reviewing 8 child files and observing that 2 files indicate "N/A" for parental consent for bathing/showering in the event of illness or soiled clothing. The operator must discuss the intent of this consent with the parents or guardians to ensure that the information recorded in the files reflects the services provided to the child and respects the parents' consent.

General Comments
The child-to-staff ratio is respected throughout the inspection.
