### General Comments

#### Monitoring Inspection - Full Day - Summer Program:

Children and educators were observed engaged in a variety of activities this morning including a sensory opportunity, water play, gross motor play, and fine motor activities. Educators have set up the sensory opportunities in the outdoor play area for the children to explore freely.

Purposeful planning is evident through documentation displayed throughout the indoor play area. The group has been exploring different science experiments; a collection of photos and documentation is posted that demonstrates the children's learning and experiences.

The indoor play area is set up with a variety of invitations and materials that supports the children's current interests (puzzles, art, origami, gardening, and science experiments). The dramatic play area has been turned into a "Donut Shop" with a debit machine and felt donuts.

Handwashing routines observed after outdoor play and before morning snack.

Monthly fire drills are documented.

Daily attendance records are accurate and reflect all children present.

New staff file (3) review was completed, all required documents are in place.

Child-to-staff ratio was observed to be met during Monitoring Inspection.

A first aid kit, emergency contacts and attendance records accompanied the group on their outing to the local playground.
