General Comments A visit was conducted to complete the annual inspection. The child-to-staff ratio was maintained at the time of the visit. A discussion was held with the educators and operator regarding the storage of medication. Educators were reminded that if a child brings medication to the centre in their backpack, staff must be informed immediately, and all medications must be secured in a locked location. Upon arrival, the school-aged children left for a nearby playground outing. They returned to the centre for lunch and then participated in a quiet-time period. During this time, some children engaged in puzzles, while others spent time using their electronic devices. Facility meets requirements under the Act and regulations; license is recommended.
