Name of Early Learning and Childcare Licensing Staff Lindsay Lewis		Position Title Quality Assurance Monitor	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. This is the facilities first Monitoring Inspection since being licensed. Upon arrival, the Educators were at the schools, greeting the children at dismissal time.

The indoor environment was bright, clean and welcoming. The classroom had a variety of resources and materials for the children to use, all of which were easily accessible. Currently the children are interested in crafts, which were displayed throughout the class. Crafting materials such as glue, paint, paintbrushes, cardboard boxes, beads and markers were observed. As the children arrived at the facility, personal belongings were stored in labelled bins and jackets were hung up. This afternoon the children were excited to continue painting pieces of cardboard. One child was observed painting their hands and feet, making prints on a larger piece of paper. The facility has materials that encourage gross motor skills. One child was observed piecing together a balancing beam, hula hoops and a tunnel to create an obstacle course.

Only positive child guidance was observed during today's Monitoring Inspection. The Educators sat with the children, engaged in conversations and activities. Child profiles were reviewed today and contained all required documents. The files were organized and easily accessed. Attendance records and cleaning checklists are being completed. As a reminder, please ensure the Quality Assurance Monitor and Inspector's contact information is posted on the communication board.
