Name of Early Learning and Childcare Licensing Staff Jodi Hennessey		Position Title Inspector	
Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments

A monitoring inspection occurred today. Currently there is only one room open on this license with the second room to open soon.

Inspector observed the children during nap/quiet time and afternoon indoor play.

The children were observed playing with the doll house, building with magnets, mark making, and painting.

Inspector observed Educator in the room speaking kindly and appropriately to the children, using positive child guidance techniques to re-direct behaviours. Educator was also observed encouraging the children to try things first but offering guidance and help if the child still wanted help.

Discussed documentation in the room and Educator and Campus Director indicated that there are binders in the rooms for documentation as well as white boards have yet to arrive to display the children's learning. The back of shelves in the learning environment will also be used to display the children's learning.

A new staff file was reviewed and verified complete during the inspection. Attendance records were reviewed and verified complete.

The learning environment is set up with age-appropriate natural materials for the children to interact and engage with. The Educator indicated that in the morning the children were exploring their outside classroom and would be going out again after afternoon snack.
