<p><b>General Comments</b></p> <p>The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection. The ratio was respected during the inspection.</p> <p>The Quality Assurance Monitor verified the following elements:</p> <ul style="list-style-type: none"> <li>- Checks</li> <li>- Staff members records</li> <li>- Qualifications and training</li> <li>- Administrative records maintained on site</li> <li>- The outdoor play area and equipment</li> <li>- Safety</li> <li>- Transportation</li> </ul> <p>The Quality Assurance Monitor had a discussion with the operator regarding adding stationary equipment in the outdoor play area. A change in service form must be submitted to the department, and a change in service inspection needs to be conducted before the children can play on the structure.</p> <p>The Quality Assurance Monitor observed the children engaged in a cloud dough recipe for pretend X-ray play. The operator informed the Quality Assurance Monitor that the children had shown interest in a doctor/medical theme. A doctor's office stand and a waiting room were set up for the children to engage in pretend play. The children were also engaged in pretend songs, doing the movements and the actions of a fish that swims, sleeping, and taking a bath. The children were also observed transitioning to eat their lunch (lunch boxes). Positive interactions were observed between the operator and the children.</p>
