Comments: Science materials missing: discussed with administrator.			

<p><b>General Comments</b></p> <p>A renewal inspection was conducted today. There were no children present at the time of inspection. Review of the children's files and other paperwork will occur at the follow-up inspection, prior to license expiration.</p> <p>The room is set up with a wide variety of age-appropriate materials for the children to interact and engage with. Discussed the outside playground at Quispamsis Elementary School. It was discussed with the administrator that children attending this program will not use the Fire Truck climbing structure due to concrete posts protruding from the ground. They will also not use "Jack's House" and the swinging structure located adjacent to the tether balls as this is missing pieces.</p> <p>Discussed with the Administrators adding Science materials to the Indoor Environment. Recommending reviewing Appendix 24-Equipment and Materials for School-Age Children in the Operator's Manual for idea to create this area of focus.</p>
