<p>General Comments</p> <p>Monitoring Inspection -- COVID-19 Recovery Phase</p> <p>Based on inspection, public health protocols are being followed and required documents are being completed daily. Discussed "Group Established Date" and that this date is to remain the same unless there has been a change to the bubble grouping. Toys and materials are being cleaned as per a cleaning schedule. Educators are ensuring proper distancing in hallway upstairs and also between the 2 groups downstairs. Each group has their own designated space for outdoor play.</p> <p>Each grouping is exploring a topic of interest and documentation is evident to support the children's learning. The children were very excited to inform the inspector of the activities they have been participating in. They were also observed to be engaged in play within the interest centers and enjoying snack time together in their groups.</p> <p>Handwashing observed consistently during monitoring inspection.</p>
