<b>General Comments</b>
<p>A follow up to the renewal inspection was conducted today. All orders for compliance were completed and the facility is recommended for license renewal pending the recommendation from Fire.</p> <p>Due to illness of children at time of inspection there were no children in the upstairs 2- or 3-year-old rooms. Discussed with educators not having sensory items such as water, sand, and playdough available to the children during this time is okay and to re-assess in approximately two weeks to see if the number of children ill has been reduced. Discussed other ways to have sensory items for the children that can be cleaned/sanitized such as sensory bottles and sensory bags.</p> <p>During the follow up inspection it was observed that the educators and children are decorating the facility for Christmas. Educators were also observed having respectful and responsive conversations and interactions with the children in their care.</p>
