| General Comments  |
|---|
| <p>Monitoring Inspection- COVID-19 Recovery Phase</p> <p>Requirements as per the recovery Guide with regards to screening, cleaning, groupings etc. observed being followed throughout the centre.</p> <p>It is evident staff are working hard to ensure the children's safety while providing an engaging environment for them. Children observed in play in the indoor and outdoor environments during Monitoring Inspection.</p> <p>The indoor environments have a variety of materials and materials that can not be easily cleaned have been removed. Individual bins and bags for art supplies, playdough and books is a creative way to continue to offer a variety of choice while ensuring the children's safety.</p> <p>Reminder to add dates to posted documentation.</p> <p>In the outdoor environment, children and educators observed engaged in play and conversation together.</p> <p>Hand washing routines observed multiple times throughout inspection.</p> <p>Ensure date established on group log only changes when/if the group "bubble" changes.</p> |
